

*Master of Science in Business and Economics  
Marketing and Media Management Specialization  
Entering Class 2010  
Updated September 2012*

## ECTS Grading at SSE

The Stockholm School of Economics changed its grading system in conjunction with the transformation to the Bologna Model in 2007. The main components of the new ECTS grading system includes ECTS credits: 1.5 credits for one full week of studies equal to 60 credits for a full academic year, and five passing ECTS grades: A, B, C, D, E, and F for fail.

A grade point average (GPA) is calculated as follows: A = 5.0 points, B = 4.0, C = 3.0, D = 2.0, E = 1.0. Thus, the GPA for a student can range from 1.0 – 5.0, with 5.0 being the highest.

To assess the grade performance of an SSE student, one can compare his/her letter grades and individual GPA to the Class GPA of all courses offered to the whole cohort, and to the distribution of grades of all courses offered during the entirety of the program (see below).

Information on grades is updated each year in September, and is available on the SSE website ([www.hhs.se](http://www.hhs.se)).
