PROGRAM FOCUS

The SSE MBA Executive Format is designed for experienced professionals seeking to strengthen their general management capabilities and leadership impact in a global context. The program combines a strong general management foundation with elective courses at SSE campuses and GNAM member schools.

Our partnership with CGOE will equip you with vital skills in AI, machine learning, and business analytics - empowering you to leverage digital tools for effective decision-making.

Sustainability is integrated across all courses as a core factor for long-term business success. Leadership development is supported through a dedicated leadership program that includes access to a professional coach.

LEARNING APPROACH

The MBALive® learning approach emphasizes applied learning and organizational insight. Participants work on several projects in real organizations, applying management theories, frameworks, and tools acquired during the program.

INTERNATIONAL EXPOSURE

The program includes three mandatory international field trips: Latvia, Singapore, and Silicon Valley. These field trips expose participants to different markets and business environments and support learning through comparative perspectives and real-world applications.

CLASS PROFILE AND NETWORK

The cohort is intentionally diverse. Participants represent a wide range of industries, including manufacturing, automotive, technology, life sciences, forestry, entertainment, telecommunications, retail, and banking. Participants come from organizations of all sizes, the public sector, and entrepreneurial ventures.

Approximately half of each class has a non-Swedish or multinational background. Most participants have extensive international professional and/or academic experience. The program emphasizes peer learning and the development of a strong international professional network.
