[1] The Grade Point Average (GPA) is calculated for all courses passed with grades Excellent, Very Good, Good or Pass. The grades are converted to a numeric value using Excellent = 5.00, Very Good = 4.00, Good = 3.50 and Pass = 3.00. The values are weighted by the ECTS credits for each course. The GPA is the sum of all products divided by the sum of all ECTS credits:

$$GPA = \frac{\sum(Grade\ number) \cdot (ECTS\ credits)}{\sum ECTS\ credits}$$

The GPA can range from 3.00 to 5.00, where 5.00 is the highest. The GPA includes complementary courses taken beyond the 120 ECTS degree requirement. The GPA does not include courses taken during a student exchange program.

Please note: 1.5 credits correspond to one full week of studies; 60 credits are equal to a full academic year.

[2] Excluding Double Degree students.
