INTRODUCTION

We cordially invite you to be part of the transformative Future of Ukraine Summit. This is a strategic event bringing together key stakeholders in the global innovation ecosystem to foster progress and sustainable development in Ukraine.

ABOUT THE ORGANIZER

Miro Hornak
Founder & CEO
Why Summits

The Future of Ukraine Summit is the brainchild of the Why Summits team, spearheaded by a veteran conference entrepreneur, Miro Hornak. Having founded organizations like Why Summits and Fleming Conferences, he has organized more than 2,800 conferences across all continents, in a range of industries such as Pharmaceuticals, Biotech, Healthcare, Finance, Energy, Technology, Transportation, Mining, and Retail.

Strong history of critical business connections and industry expertise make Why Summits an experienced and trusted organizer. Since 2003, the team has attracted over 30,000 subject matter experts and top industry thought leaders to speak at these conferences. More so now than ever, Miro's mantra, "**if we meet, we can change the world**", resonates profoundly, encapsulating the transformative power of these gatherings."

EVENT OVERVIEW

The Future of Ukraine Summit is a platform that brings together the major stakeholders in the innovation ecosystem and the project management landscape, with a specific focus on Ukraine. Our event presents a unique opportunity to discuss necessities and best practices from the perspective of various stakeholders, including VC investors, corporate investors, business angels, startups, and hubs.

We will guide participants through the real-time challenges and triumphs of conducting business in Ukraine.

We will explore how the Ukrainian nation is leveraging its IT and engineering capabilities, combined with favorable market conditions of conducting business in Ukraine. We will also shine a light on the inspiring success stories of both Ukrainian and international investors who have managed to thrive during these difficult times.

Participants will be equipped with a unique understanding of why investing now is key to reaping future benefits from Ukraine's rising potential. You will gain actionable insights into the opportunities that exist today, and learn why this emerging powerhouse is poised to reshape Europe's business.

Join us to understand why investing in Ukraine today is a promising proposition for a prosperous tomorrow.

Head of Unit Berlin Districts & Startups at Berlin Partner for Business and Technology

Christoph Rätke
Angel Investor and Founder of
Berlin Startup Academy

For anyone interested in the economic future of a resurgent Ukraine, this was the conference to meet and talk to ecosystem partners and business opportunities. It was important and inspiring to engage with such a network, and many new contacts will remain relevant in the long haul.

It was a great pleasure and honour for us to attend the Ukraine Summit 2023 in Berlin.

We were impressed by the diversity of ideas, technology and innovation competence of the start-ups as well as by the strong motivation of the founders to build up their business under the most difficult conditions in the country and to compete internationally.

Berlin is open to start-ups and talents from Ukraine. We look forward to further cooperation with the organizers.

PARTNERSHIP OPPORTUNITIES

Creating a lasting impression along with unforgettable memories for our highly selected participants is crucial, and firmly connecting those experiences and feelings with our partners is our ultimate goal.

The objective of our team is not only to meet your needs and satisfy basic ROI measures on and after the event, but to exceed your expectations and push your conference experience one step further, to become more personal, and deeper in a sense of relationship-building.

Our partnership opportunities cover a wide range of services, from more traditional forms of cooperation towards more endeavoring forms of connecting with your potential customers.

Always scalable, always ready to tailor the package to fit our client's needs.

FUTURE OF UKRAINE SUMMIT, BERLIN, JUNE 7-8 IN NUMBERS

30

30 Ukrainian Startups pitched their creative solutions to an audience of potential investors and clients, representing a diverse range of sectors, such as health, green technology, productivity, education, metaverse, logistics, and retail. These startups brought cutting-edge ideas, innovative business models, and new technologies that are transforming the industries.

35

35 speakers represented the ecosystem and addressed the big question: how to rebuild Ukraine for the better, leveraging the tech talent the country has to offer. These speakers came from various backgrounds, including government, investors, industries, and civil society.

130

The 130 delegates who attended the 2-day event came from different parts of the world, mainly from Ukraine and the EU states, but also from the US and Asia. They were a diverse group of investors, entrepreneurs, academics, tech scouts, and thought leaders, who shared a common interest in the future of Ukraine and the role of technology in shaping it.
