

The Stockholm School of Economics (SSE) is one of Europe's leading business schools. We have been ranked as the no.1 business school in the Nordic countries ten years in a row by the Financial Times.

MSc PROGRAM IN ACCOUNTING & FINANCIAL MANAGEMENT

2 YEARS, 120 ECTS

The Master of Science Program in Accounting & Financial Management is designed to prepare students for careers such as financial analyst, business controller, chief financial officer (CFO), investment banker, consultant and auditor.

As an exclusive program with relatively low numbers of students, the program offers an intimate and creative learning environment. The faculty is engaged in pedagogical development and deeply interested in our students' journey of learning. The program is thoughtfully designed to encompass a variety of pedagogical methods such as lectures, group work, case-based teaching and a high number of real-world examples. With close connections to the business community, the program is also able to offer frequent guest lectures by top management from multinational firms.

As a graduate from the program, you will have a deep understanding of how financial and non-financial controls can be integrated and used for control purposes in multinational companies, how large companies report to external shareholders and other stakeholders and how these evaluate the financial and non-financial performance of the companies.
