3:30-5:00 PM Featured Speaker in Torsten

Prof. Jayashankar Swaminathan

University of North Carolina

Operations Management Research for Societal Transformation

Tuesday June 23 2026

Plenary session in Aula

5:10-6:00 PM Panel: Geopolitics and the future of supply chain

In an era defined by geopolitical tension, fragmentation, and uncertainty, global supply chains are being fundamentally reshaped. This high-level panel brings together leading academic researchers and senior industry representatives to explore how to navigate risk, build resilience, and make strategic decisions in an increasingly volatile world.

Speakers:

Björn Stenecker, Chief Procurement Officer, Vattenfall

Fredrik Taube, Head of Procurement, Söderberg & Partners (Former CPO Ericsson)

Prof. Kenneth Boyer, The Ohio State University

Prof. Chris KY Lo, The Hongkong Polytechnic University

Moderated by:

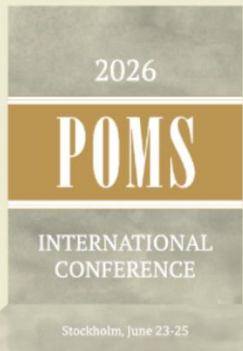

Prof. Constantin Blome, Stockholm School of Economics

6:00-8:00 PM

Panel directly followed by

Approach

Opportunities

10:30-10:50 Swedish Fika with coffee hosted by Poly U

The Department of Logistics and Maritime Studies (LMS) at The Hong Kong Polytechnic University warmly invites applications from outstanding scholars and educators to join our growing academic team. We are currently recruiting one Assistant Professor, one open-rank Professor/Associate Professor, and two Teaching Fellows in the broad areas of supply chain and operations management, logistics, maritime studies, and related disciplines. LMS is a dynamic department in the Faculty of Business with strong research, teaching, and industry engagement in logistics, supply chain, operations management, quality improvement, innovation management, market and operational analysis, purchasing, and production.

The Department welcomes candidates who are committed to high-quality research, impactful teaching, curriculum development, and meaningful engagement with industry and society. Prof. Chris K. Y. Lo will be attending the POMS International Conference and will be happy to interview suitable candidates or arrange informal meetings during the conference period. Interested candidates are welcome to send their CV directly to Prof. Lo tccl@polyu.edu.hk and make an appointment with him. We especially encourage conference participants who are interested in building an academic career in Hong Kong, one of the world's leading logistics and business hubs, to explore these opportunities and connect with us during the conference.

Teaching Fellow Associate Professor
Professor . Assistant Professor

Wednesday June 24 2026

Plenary session in Aula

10:50-11:50 Industry Keynote Speaker: Sara Öhrvall & Fireside Chat: Isabel Keulen, SSE Business Lab

Sara Öhrvall is Practitioner in Residence at the Stockholm School of Economics, bringing extensive international experience in technology-driven transformation, innovation, and organizational change. Her executive career includes leadership roles as COO at Axel Johnson, Chief Digital Officer at SEB, and SVP R&D at Bonnier, complemented by board positions in leading Nordic companies including Investor AB, Axfood, and Verisure. Having worked across business ecosystems in Tokyo, London, Singapore, Brussels, and San Francisco, Öhrvall contributes a global perspective on how organizations adapt to technological and strategic change.

Explore Stockholm's vibrant startup scene and learn why the city has earned its reputation as a unicorn factory together with CEO of SSE Business Lab and SSE Ventures, Isabel Keulen.

9:00-10:30 AM Special Session: Panel

Shifting Landscapes in Humanitarian Operations: Implications for Research and Practice

Recent developments in the humanitarian sector, including tighter funding environments, constrained access, greater emphasis on local actors, and growing use of data and analytics, are reshaping how aid is planned and delivered. This panel discusses how these shifts inform current research agendas and what they imply for strengthening the link between research and practice.

Prof. Iman Parsa, Stockholm School of Economics

Prof. Thomas Breugen, Tilburg University

Prof. Andriana Leiras, Hanken School of Economics

Florent Chané, Project Manager, Welthungerhilfe

Featured Speaker in Torsten

Thursday, June 25, 9:30-10:30 AM

Prof. Frank Geels University of Manchester

Great Power rivalry and geopolitics in accelerating clean-tech transitions.

10:30-11:00 PM Swedish Fika with Coffee in Atrium

Thursday June 25 2026

11:00AM-12:30 PM Breakout Sessions

Paper presentations

**11:00-12:30 AM Special Session: Workshop with
Mohsin Malik Swinburne University of Technology, Australia
Leveraging Qualitative Comparative Analyses (QCA) for
Middle-range Theorising in Operations and Supply**

This workshop introduces configurational theorising as a novel approach to developing middle-range theories in operations and supply chain management. By linking philosophical underpinnings with practical methodological execution, participants will gain a robust understanding of how to harness configurational theorising to generate novel contextual insights. The workshop focuses on Qualitative Comparative Analysis (QCA), a method well-suited for uncovering causal complexities. Participants will explore the principles of QCA, with particular emphasis on its applicability to middle-range theorising. A hands-on session with the fuzzy-set QCA (fsQCA) software will provide attendees with practical skills to design and execute configurational analyses in their own research

12.30 PM Moving time and city walk to off site Lunch (10 min walk)

1:00 PM – 2:00 PM

Conference Lunch Urban Deli, Sveavägen 44

2.00-2.30 PM Moving time from
Urban Deli back to Conference venue

*Included for registered attendees.
Enjoy a 10 minute walk from SSE to our
great lunch spot, Urban Deli! Our
conference crew will guide you
to Sveavägen 44.*

The Atrium

Graceland

Extended SSE campus

Stockholm School of Economics attaches particular importance to the social dimension of knowledge creation and transmission. This requires premises for meetings, stimulating environments and a dense schedule of intellectual, cultural and recreational events.

With buildings surround the Observatory Park in central Stockholm, SSE has a campus well suited to be the stimulating and vibrant space necessary for realizing our vision.
