The presence of sexual violence is a departure from gender equal societies. Women all over the world are not able to enjoy the sense of safety to the same extent as men. The reduction of sexual violence has been included in SDG 5-"*Gender Equality*" where one target reads "*Proportion of women and girls aged 15 years and older subjected to sexual violence by persons other than an intimate partner in the previous 12 months, by age and place of occurrence*". The aim of our project is to create a strong foundation for the reduction of sexual violence worldwide.

*https://sustainabledevelopment.un.org/sdg5

Many cases of sexual violence occur in restaurants, bars and nightclubs.

14.0% of all women aged 15-24 have been the victims of sexual violence. Same number among women aged 25-44 was **5.5%**

4/10 women aged 16-44 stated that they had a moderate or a great fear of becoming the victim of sexual violence.

*Data from 2016 and 2017 in Sweden (Brpttsförebyggamde rådet):

SECUNITY

ACHIEVE SECURITY IN UNITY

*A **fight to end sexual violence** <u>in unity</u>.* In the #metoo campaign, victims summoned the courage to tell the world about their experiences in an attempt to make it stop. Now, Secunity will contribute to a a society where men, women & corporations fight for the security of women- in unity.

A TWO DIMENSIONAL TOOL

A Tool for Women

With Secunity, women have easy access to overview information regarding sexual violence at different venues - and can influence the situation by sharing their own experiences. As women share experiences and exchange information - they have the tool to control their situation when going out for dinner, having a beer at bar or dancing all night at a club.

A Tool for Companies

Through Secunity, women provide companies with feedback on their level of safety & companies gain insight on how their venue is perceived. The app translates women's experiences into objective and valuable information for companies. This provides companies with an indicator of whether and what preventive actions should be taken
