

The Stockholm School of Economics (SSE) is one of Europe's leading business schools. We have been ranked as the no. 1 business school in the Nordic and Baltic countries over ten years in a row by the Financial Times.

SSE offers programs of the highest international standards, including Bachelor, Master, PhD, MBA and Executive Education programs. The School also conducts world-class research. Our programs are developed in close cooperation with the research and business communities, which give our graduates great potential to attain leading positions in companies and other organizations.

SSE is accredited by EQUIS, certifying that all of the main activities – teaching as well as research – are of the highest international standards. SSE is also the only Swedish member institution of CEMS and PIM, which are collaborations between top business schools worldwide, contributing to the high quality SSE is known for.

“SSE’s MSc program in Economics was the perfect choice for me because of its international environment, academic excellence, as well as its two different specializations – Applied Economic Analysis and International Economics!”

## MSc PROGRAM IN ECONOMICS

**2** YEARS | **120** ECTS

The Master of Science Program in Economics will equip you to address challenging economic problems and provide you with excellent tools to pursue careers in both the public and private sector as well as in academia. The program emphasizes problem solving skills that can be applied in a wide variety of settings and offers an invaluable start to your career. By using modern economic analysis and quantitative empirical methods, we give you the tools to analyze complex real world problems in public policy making, as well as in private business and international organizations. You will also be well equipped to continue with PhD studies in economics.

The program is best suited to students with a strong undergraduate background in economics. It demands an excellent analytical ability and the ambition to put your work to the test with the very best people in the field. All courses are given in English by internationally renowned faculty.
