

## Quick guide for Internet connection at Liljeholmen

Internet expenses are not included in the rent and each tenant must make his/her own arrangements. If you do not have a Swedish personal code number, “Bredband2” is your best choice. Please follow the instructions below:

1. Phone: 0770 – 811 000. When you get an answer - press 1 – and you will soon get to talk to an administrator.
2. Tell them your name, where you live, your address (for example Nybohovsgränd 17) and that you are an exchange student studying at Stockholm School of Economics. When they ask for your “personnummer” (personal code number) give them the date when you are born – year – month – day (for example 86-05-10).
3. Tell them your correct apartment number which consists of eight digits – first the object number which is 6509 for everybody in the building, plus the second half of your apartment number found on your lease agreement under “Premises Situated at”, for example 7475. The complete number in this case reads: 65097475.
4. You may also get the question if you know the apartment number used by the tax service. These are the four *first* digits found on your lease agreement under “Premises Situated at”, for example 1402.
5. The fiber provider of the building at Nybohovsgränd is **Zitius** (owned by Qmarket).
6. You will now be able to choose between the different options Bredband2 has to offer. They usually have a discount offer for new customers. Ask.

Homepage: [www.bredband2.com](http://www.bredband2.com) (It is not possible to order the internet connection on their website if you do not have the complete Swedish personal code number).

Good luck!
