PAST EVENTS

How the Riksbank Is Responding to the Challenges of Stablecoins and the Digital Euro

At a seminar co-hosted with SNS in December, researchers, policymakers, and industry representatives examined how emerging digital currencies are reshaping monetary policy. The discussion explored the Riksbank's work on regulatory frameworks, stability risks related to stablecoins, and the implications of the European Central Bank's digital euro project.

Women in Finance Glögg Mingle: Strengthening Networks and Visibility in the Financial Sector

SHoF's annual Women in Finance Glögg Mingle brought together researchers, practitioners, and policymakers to expand networks and increase visibility for women across the financial industry. Participants discussed career pathways, role models, and the importance of creating environments that support long-term inclusion.
