### About us

The Swedish House of Finance at the Stockholm School of Economics is Sweden's national research center for financial economics. It hosts internationally distinguished researchers, and enables financial research and development of the highest quality.

The center serves as an independent platform where academia and both the private and public financial sectors can exchange knowledge, foster new ideas and gain access to a global network of the most prominent researchers in finance.

The Swedish House of Finance is an equally private and government funded, nonprofit, nonpartisan organization. It hosts approximately 70 researchers, consisting of resident and affiliated professors as well as PhD students.
